**Job Summary**
The Downtown Aquarium Denver is an AZA accredited aquarium containing 1.125 million gallons of aquatic exhibits in a 107,000 square ft. facility. The aquatic and terrestrial exhibits house over 11,000 fish, birds, reptiles, amphibians, mammals and invertebrates represented in a diverse collection of over 700 species. Our exciting aquarium and rapidly growing company offers health and dental benefits, employee discounts on food and retail at all of our locations, and 10 days paid vacation, with 5 available after 6 months. Compensation is commensurate with experience.

**Essential Functions**
Responsibilities include, but are not limited to: Operation, maintenance and troubleshooting of life support systems and other integrated systems associated with Life Support. Assist in retrofit/upgrade of current Life Support Systems along with development and execution of new exhibits. Must be able to work with outside contractors and provide assistance as needed. Must be available to work nights, weekends, shift coverage and for emergency situations.

**Other Duties and Responsibilities**

**Knowledge, Skills and Abilities**
Requirements: Must have 1 – 2 years of knowledge/training in mechanical repair, plumbing and electrical systems. Applicants need to be self-motivated, have good people skills, the ability to take directives, and the ability to work well with others to achieve common goals. Applicants must be able to physically perform requirements of position: heavy lifting, ladder work and wet environments. A flexible, positive, guest oriented attitude is vital. Applicants must be able to pass a background check and drug test.
