

<b>Position</b>	Environmental (Water) Quality Technician (Full-Time)
<b>Facility</b>	Fort Wayne Children's Zoo
<b>Location</b>	Fort Wayne, IN
<b>Job Summary</b>	<p>Applications are being accepted for a full-time Environmental Quality Technician. The Environmental Quality Technician provides oversight to the zoo's Environmental Quality Program including conducting field measurements and laboratory procedures for evaluation of animal enclosure features throughout the zoo with a large focus on water quality testing. The zoo collection consists of over 1200 animals from great apes, hoofstock, carnivores, birds, marine mammals, elasmobranchs, and fishes. This position has the unique opportunity to grow the zoo's capabilities in this specialty of environmental quality as it relates to animal management. A Bachelor's Degree in Biology, Chemistry, or other related field is required. Three years of experience working in a zoological setting is preferred. A background in aquarium water quality testing is also an asset. See <a href="http://www.kidszoo.org">www.kidszoo.org</a> for a full job description and application. This is a full-time position requiring availability for a 40-hour work week year-round (including evenings, weekends, and holidays).</p>
<b>Essential Functions</b>	<ul style="list-style-type: none"> <li>□ Performs water quality measurements and procedures for aquatic exhibits and water features.</li> <li>□ Performs evaluations and measurements of animal enclosure lighting including UVB concentration, lighting intensity, and spectral analysis.</li> <li>□ Performs regular evaluation of artificial lighting fixtures and bulbs; determines when bulbs should be replaced and when fixtures are not functioning as intended.</li> <li>□ Performs evaluations and measurements of air quality of animal enclosures, including determination of air turnover rates, mold/spore counts, and detection of other potential environmental pathogens.</li> <li>□ Performs evaluations and measurements of noise and sound levels in and around animal enclosures.</li> <li>□ Collects necessary environmental samples for processing in both in-house and external laboratories.</li> <li>□ Collects soil samples for soil analysis.</li> <li>□ Maintains accurate and updated records for all environmental quality parameters measured.</li> <li>□ Provides accurate, timely reports of environmental quality data to appropriate staff.</li> <li>□ Inputs environmental quality data into the ZIMS record keeping software.</li> <li>□ Manages the environmental quality lab, keeping the facilities and equipment clean and in good working condition.</li> <li>□ Provides consultation to other zoo staff for issues concerning water quality, air quality, and lighting.</li> <li>□ Ships samples to external laboratories while remaining compliant with IATA and all other regulations.</li> <li>□ Maintains the Environmental Quality Lab in accordance with OSHA and all other relevant federal, state, and local regulations.</li> <li>□ Trains other zoo staff on the duties of the Environmental Quality Technician so that procedures can be performed in that person's absence.</li> <li>□ Keeps the Environmental Quality Lab well-stocked with all necessary equipment and supplies.</li> <li>□ Consults with or provides consultation to colleagues at other zoos/institutions via phone, mail, and email.</li> <li>□ Assists with special projects and helps other zoo employees as needed.</li> <li>□ Actively contributes to positive guest experiences.</li> </ul>
